What the
delegates said...

Great to have it as a virtual conference and therefore to be able to attach delegates from all over the world. Also really nice to be able to replay sessions or attend after they've finished.

Excellent conference. Well-organised. Platform used was excellent. Discussion forums were a great medium for informal 'chat' that would have been lacking otherwise.

The platform worked really well and it was a very interesting conference. It was great to have such a global feel to it.
