BSAS Global

BSAS Global aims to advance responsible, safe, high-welfare and environmentally sustainable animal production globally.

Comprising science and industry experts from around the world, we aim to establish formal animal science networks globally, developing links with like-minded international societies to:

- Strengthen and disseminate animal science
- Facilitate international collaboration
- Facilitate links with like-minded societies globally and increase membership
- Host regional conferences and workshops
- Exchange speakers, students and scientists
- Accreditation and CPD

If you would like to know more or collaborate with us, please contact global@bsas.org.uk
