

R and Statistics Workshop 2021

WEBINAR 17th-18th August

Confused by stats? Need a refresher course in R?

 Under the guidance of Dr Davina Hill (Lecturer in Welfare Physiology at the University of Glasgow), this two-day training webinar will give you an introduction to the statistical software package 'R', a refresher on experimental design, and support with using robust statistical analysis in your own work. Whether you are new to the software or need an update, this training webinar will refresh your knowledge and enhance your skills.

Places are limited, so book now to avoid disappointment. To register your interest, email: bsas@bsas.org.uk with the subject line, 'Stats Workshop 2021'.

**Get to grips with statistics at the BSAS
Early Career Council's WEBINAR!**
