

bsas

british society of animal science

Corporate Membership

Participate in shaping the future of BSAS, ensuring that animal science and its application is relevant to your needs. Corporate Membership of BSAS adds value to your organisation, saves money and offers a wide range of benefits

Shaping the Future of Animal Science

- Join our Stakeholders Group to shape the future of BSAS, and help BSAS to ensure animal science is relevant to the needs of your sector by driving future research projects
- Opportunities for engagement and to provide expert advice, opinion and drive industry-led initiatives and sessions at the BSAS annual conference and events

Global

- Work with like-minded societies across the world via BSAS Global
- Free membership of the European Federation for Animal Science entitling members, amongst other benefits, to a discounted ticket price for the annual EAAP conference

Recruitment and Training

- Assisting you in recruiting, training and retaining the very best animal scientists via digital promotion, career fairs, access to our early career scientist directory and training initiatives
- Advertisement of vacancies on the BSAS website and social media platforms, or in the members only area
- Early career buddy-up and mentor schemes
- Access to the latest research applications and developments in animal science and practice from around the world by via BSAS conferences, workshops and networking
- Support and advice from BSAS' network of leading academics and scientists
- Access to BSAS on-demand, our library of video of conference presentations

Conferences and Workshops

Discounts to leading animal science workshops and seminars, including the BSAS annual conference. BSAS workshops and partner events

Communications

Access to 'animal', a peer-reviewed scientific journal presenting the most recent research in animal science

Regular newsletters and updates

Promote your events and updates via BSAS digital media platforms

Accreditation and CPD

Your staff can apply to join the professional register to demonstrate and develop their level of professional competence and status to employer and customer. Becoming a registered animal scientist or animal technologist will enable staff to demonstrate their and your professional competence and status, giving national and international recognition to skills, knowledge and experience

Renew your membership or become a BSAS Corporate Member today

BSAS corporate membership fees are invoiced annually to the organisation.

The level of discount offered is proportional to the number of individual named members within the organisation. The discount applies to all members in the group.

(Discounted fees only apply to those paying full membership. Rates for postgraduate students are already discounted).

Corporations and groups receive a discount of 15%, when registering 6 or more members or a 10% discount for 4-5 members
